

# MANIFESTO FOR QUIET DISRUPTORS

## ... ONLY PEOPLE MAKE CHANGE

So let's give space to the QUIET DISRUPTORS: to those who think before they speak; who ask questions we'd sometimes rather not face;

who get their energy from calm reflection, elegant ideas, and not from reactive noise; who see life in its bigger sphere and want to make a difference that benefits both humanity and the earth, over the long haul; who exercise kindness, generosity and

stubborn courage in pursuing a different way of looking, being and doing that can turn our world upside down - for the better. 🌿
